the blame where it belonged, that is on the Chicago dealers themselves. It is very well known that when the grade was established in August last, all the country newspapers urged upon the farmers and the local dealers the necessity of sending a pure article of wheat to market. So far as this locality is concerned we can testify to the fact that the desire was general to keep the grade of wheat up. Our ware-houses supplied them-selves with fanning mills, and a just pride was felt by our farmers to send a pure quality of wheat to market. Well, the trade opened, when, to the astonishment of all of us, it was found that the difference in price in Chicago between pure No. 1 wheat and a rascally compound of wheat, oats, rye, barley, mill screenings, and dirt, was only two cents. This unsettled everything. It was a direct premium to dishonest dealers and lazy, slovenly farmers, and they took advantage of it. We would suggest to the Chicago board of trade, if they are really desirous of having a good quality of wheat

Galena and Chicago Union Railroad Extension. The President of the Sterling and Rock Island railroad, M. S. Henry, Esq., has just returned from the East, where he has secured the iron to lay the track already graded, from Sterling to Rock Island. This makes two routes from Chicago to Rock Island, as this route connects with the Fulton Air Line at Storling. Great advantages will be derived to the people along the line of the Galena and Chicago Railroad, from the fact that this new route opens to them the rich coal fields of Rock Island county. It will make a great difference in the price
